

# Important Users' Instructions

## Of using Full-Burn® NGT (Nano Graphite Tablet)

WangTech, Jan.01.2012

### A. The product

The product Full-Burn® NGT (Nano Graphite Tablet) is made into tablet formation as an uses of fuel additive, Each tablet is suitable for applying in 40 to 60 liters gasoline or diesel (average at 50 liters).

### B. Before use

Before applying Full-Burn® NGT, Please make status record of the original average fuel consumption of your vehicle (in Km/Lt), and keep on recording status for after use. These will help to comparing the before/after fuel usage of your vehicle.

### C. Easy to use

When the refueling indicator of your vehicle is flashing, it's the appropriate time for adding Full-Burn® NGT. Please drive your vehicle to the nearest gas station and simply add the Full-Burn® NGT into the tank.

### D. Estimate how many tablets to use

Estimate how many liters you will be needed for fill-up the tank and divide by 50 liters which results the number of tablets that you might use at this time.

### E. Start to use

Open the outer cap of fuel tank and push down the leaf spring of the inner cap with finger. Take out Full-Burn® NGT tablet from aluminum foil pack and drop into the fuel tank before gas gun refueling.

### F. After uses

The effects of Full-Burn® NGT will appear fuel economizing result gradually after using continuously 5 to 10 times tablets (because the existing carbon deposit are removing gradually.), Please follow the users' instructions patiently, And minimum 25% of fuel economizing effect shall be expected right after engine has been totally cleaned by Full-Burn® NGT.

### G. Avoid

Full-Burn® NGT shall be kept in cool and sheltered place and shall be kept away from the reach of child. If ingested by mistake, please drink volume water to prompt vomit and send for medical care immediately.

Enjoy, They are your wallet guard and only to serve you!
